OUR STORY

VWI is the result of a merger between SRM Group and VW International, uniting decades of experience in Federal contracting and mission-critical services. Led by Veterans with first-hand experience serving on elite teams, the VWI team brings a unique understanding of the environments in which our Federal and military clients work and serve. We provide innovative, cost effective solutions to every project we support, ensuring our services run safely, efficiently, and without interruption.

PAST PERFORMANCE

Camp Robinson: Lodging, Housing & Transportation

For nearly 10 years, the VWI team has successfully managed custodial, lodging operations, and transportation services for the National Guard Professional Education Center housing facilities. We oversee a team of carefully selected professionals coordinating daily custodial services for 650 guest rooms and common areas, totaling over 270,000 square feet, as well as a fleet of vehicles and drivers running routes 20 hours a day.

These facilities host more than 23,000 students and visitors annually, with up to 700 students housed at a time. Together, our custodial, transportation, and registration teams provide exceptional facilities support for what is functionally the largest hotel in Arkansas.
